BUREAU VERITAS

BUILDING A WORLD
OF CONFIDENCE

SUMMARY

INTRODUCTION

Welcome to Bureau Veritas Training Dubai

Across all industries, achieving the highest levels of performance and compliance requires the cooperation of employees across organizations, from top to bottom, and at local and global levels. Bureau Veritas' wide range of training options and resources enable you to equip your personnel with the necessary skills and knowledge to take on the task. Our offer includes classroom and digital formats and tools, and covers standards relating to QHSE, Enterprise Risk, Sustainability, Transportation & Mobility and Food Safety. Our expert designed and led courses allow you to meet your particular training needs effectively and efficiently.

COST REDUCTION
We are able to identify areas for improvement / change

QUALIFICATIONS & EXPERIENCE
Our people, processes & approach are recognised by leading accreditation bodies globally

FLEXIBILITY
Our solutions are designed around you, what works for you will work for us

REDUCED DISRUPTION
We are uniquely positioned to offer flexible solutions to evolving requirements

WHY BUREAU VERITAS

CONSISTENCY OF APPROACH NATIONALLY
Our associates, consultants & on-line training tools are accessible in every Tarmac location

FAST REAL TIME REPORTING
We are able to provide total visibility across all training activities

CUSTOMER CENTRICITY
Our customers are at the heart of every decision

CONFIDENCE
"The largest and most experienced test, inspect and certification business in the world" – BIM 2018.
Bureau Veritas Dubai - Training Team:

MARWAN ARIDI
Certification Manager

KRISH SRIRAM
Principal Auditor & Manager - Training Services

JEMELYN DANAO
Team Leader Training Operations

RUBY ANN MULINGBAYAN
Training Advisor

OUR TRAINING SOLUTIONS

AUDITOR TRAINING
Specialized training for internal and external auditors

LIVE VIRTUAL CLASSROOM TRAINING
An interactive online live tutor-led training through an online platform

CLASSROOM TRAINING
In house and open house Classroom training to develop skills in implementing a wide range of management systems

NEW E-LEARNING COURSES
24/7 Online Learning

VIRTUAL REALITY TRAINING
HSE VR Trainings innovation solution

FEATURES OF BUREAU VERITAS TRAINING

- Over 100 Instructors Globally
- Dedicated Training Service Team
- Fully Integrated Exercises & Workshops
- Over 10,000 Delegates Annually
- Present in 42 countries

- Blended Flexible Learning Competency
- Global Accredited Bodies
- Industry Recognised Qualifications
- Full Training Portfolio
- Expert Service Team

FOOD AND AGRICULTURE

FOOD & AGRICULTURE

Under increasing regulatory and consumer pressure, companies that handle, process and store food products need teams with the ability to meet increasingly stringent industry standards.

Bureau Veritas offers a range of food safety training solutions, including Food Safety Management System (FSMS) training to standards such as ISO 22000, FSSC 22000 and the BRCGS; Food Safety Internal Auditor training; and IRCA-certified Lead Auditor training for ISO 22000- and FSSC 22000-compliant FSMS.

We also provide training programs on the implementation and maintenance of Hazard Analysis and Critical Control Points (HACCP), Vulnerability Assessment and Critical Control Points, and Good Manufacturing Practice systems. In addition, we offer a range of Food Safety Modernization Act training courses.

WHAT IS ISO 22000?

ISO 22000: 2018 specifies the general guidelines for a food safety management system (FSMS). This type of system enables any organization to plan, implement, operate, maintain, and update a FSMS providing safe products and services. Thus, this international standard helps in evaluating and assessing mutually agreed customer safety requirements and demonstrating conformity with customers and any other interested parties.

WHO IS ISO 22000 FOR?

ISO 22000 certification applies to the entire foodchain: from "farm to fork"

BOOK NOW

INTEGRATED MANAGEMENT SYSTEM

INTEGRATED MANAGEMENT SYSTEM

Organizations today seek a holistic view of the quality, health & safety and environmental (QHSE) risks they face. Integrated management system certification to recognized international standards by Bureau Veritas enables you to manage risks efficiently and improve reputation.

Regulation and public scrutiny of companies' QHSE performance is on the increase. Quality issues, poor labor practices or weak management of environmental impacts can hit reputation and revenues, and harm your ability to hire talented employees. Implementation of QHSE management system standards is an important first step to managing risk.

CORPORATE RESPONSIBILITY & SUSTAINABILITY

CORPORATE RESPONSIBILITY & SUSTAINABILITY

Companies are increasingly judged not only on the products and services they provide but also on their social responsibility, accountability, and environmental sustainability credentials. Bureau Veritas' Corporate Responsibility and Sustainability training solutions support your journey towards becoming a more sustainable business in a fairer and greener world. Our courses include training for social responsibility and accountability standards such as ISO 26000 and Social Accountability International: SA8000. Our experts can help your staff prepare to implement a compliant system and maintain it over the long term.

As part of their environmental sustainability strategy, many businesses choose to create an ISO 50001-compliant EnMS to evaluate and improve their energy consumption. For this, Bureau Veritas has several digital and classroom training options, as well as Transition Auditor training. In addition, we offer a training course for the Program for the Endorsement of Forest Certification®, a forest and timber initiative.

WHAT IS ISO 50001?

ISO 50001:2018 is the latest version of the best practice international EnMS. It specifies the requirements to enable an organization to develop and implement a policy, identify significant areas of energy consumption and target energy reductions. The new ISO 50001 follows the ISO High Level Structure and risk based approach making it easier than ever to integrate it with existing quality (ISO 9001 QMS), environment (ISO 14001 EMS) and health & safety (ISO 45001 OHSMS) standards based management systems

WHY IMPLEMENT ISO 50001?

• Reduce costs with a structured approach toidentifying, measuring and managing energyconsumption
• Improve business performance by affectingbehaviour and identifying opportunities to reduceenergy consumption
• Engage top management, make energymanagement a boardroom issue
• Comply with legislation, meet current and futureenergy efficiency & GHG reduction targets
• Formalise your energy policy and objectives,embed energy efficient thinking in yourorganization

BOOK NOW

ENVIRONMENT

ENVIRONMENT

Companies are increasingly aiming to reduce their environmental impact. Implementing an EMS such as ISO 14001 enables you to respond effectively to environmental concerns and problematics. Implementing ISO 14001 EMS will emphasize positive effects: alignment with legal requirements, measurement of environmental impacts as well as improvement of environmental performance and development of employee engagement. It will also increase competitive advantages, reduce organization's cost and provide financials savings.

Bureau Veritas' ISO 14001 training offer will support you to achieve your company's environmental objectives through the implementation and maintenance of a compliant EMS. Courses will cover overview, in-depth, Internal and Lead Auditor as well as a suite of digital tools.

Mastering & Auditing EMS Training	4	24-27	28 - Apr 1	16-20		12-15	

WHAT IS ISO 14001?

ISO 14001 an international Environmental Management System (EMS) standards applicable to any organization, anywhere. Based on the Plan-Do-Check-Act cycle, ISO 14001 provides a framework and specifies the most important requirements to identify, control and monitor the environmental aspects and impacts of any organization, and also how to manage and improve the whole system.

WHICH AREAS ARE COVERED BY THE ISO 14000 SERIES?

The key areas covered by this series are:
• Environmental Management Systems (EMS)
• Environmental Auditing
• Environmental Labels and Declarations
• Environmental Performance Evaluation
• Life Cycle Assessment (LCA)
• Environmental Communication
• Greenhouse Gases (GHG) Monitoring

HEALTH & SAFETY

Your company's human capital is its greatest asset. Protecting your workforce with robust health and safety standards reduces risk, protects your reputation and minimizes lost time. It can also cement trust among employees and customers. Bureau Veritas' training courses and tools for OHSMS enable you to proactively prevent illnesses and injuries on the job. Our experts support your teams to develop the skills and knowledge they need to achieve and maintain an ISO 45001-compliant OHSMS, with a range of courses and tools adapted to all levels of experience.

While our introductory and advanced courses provide essential and in-depth knowledge about occupational health and safety and ISO 45001, our internal and lead-auditor courses train learners to assess the effectiveness and compliance of OHSMS.

WHAT IS ISO 45001?

ISO 45001 is an international Occupational Health and Safety Management Systems (OHMS) standard. It enables an organization to have control over, and knowledge of, all relevant hazards resulting from normal operations and abnormal situations, and improve its performance.

WHY SHOULD MY ORGANIZATION IMPLEMENTISO 45001?

- **Improve your company's Health & Safety image**: by implementing ISO 45001 certification, you receive proof of your organization's ongoing commitment to the health and safety of your employees
- **Demonstrate legal compliance to safety regulations**: a certified occupational health and safety management system provides assurance that legal compliance is effectively managed. Implementing it is now a legal requirement in many countries.
- **Reduce insurance premiums**: by reducing the number of accidents or damage to equipment or plant sites, an organization can also reduce insurance premiums, cost of fines and civil actions.
- **A mark to demonstrate your organization's commitment to excellence**: the Bureau Veritas Certification Mark is recognized and respected throughout the world as a valued symbol of reliability, sustainability and trust.

ENTERPRISE RISK

ENTERPRISE RISK

From business continuity, to supply chain security, to asset management, organizations face a range of risks. Increased interconnectivity has created new threats to data protection and information security. Meanwhile, traditional risks to businesses, such as operational delays and utility disruption, are compounded by a growing dependence on digital networks.

To help companies protect their assets, Bureau Veritas offers a wide variety of Enterprise Risk training solutions. Bureau Veritas' portfolio includes courses from the fundamentals of risk management to advanced training and tools for conducting internal audits.

With Bureau Veritas training, you can ensure your staff understands and is ready to implement, evaluate and improve your Enterprise Risk systems.

RISK MANAGEMENT

Risk is a necessary part of doing business, and in a world where enormous amounts of data are being processed at increasingly rapid rates, identifyingand mitigating risks is a challenge for any company. It is no wonder then that many contracts and insurance agreements require solid evidence of good risk management practice.

ISO 31000 provides direction on how companies can integrate risk-based decision making into an organization's governance, planning, management, reporting, policies, values and culture. It is an open, principles-based system, meaning it enables organizations to

COURSE TITLE	DAYS	FEB	APR	JUN	AUG	OCT	DEC

ISO 31001:2018 Lead Risk Manager	5	14-18	11-15	13-17	15-19	10-14	13-14

WHO IS ISO 31000 FOR?

ISO 31000 is applicable to all organizations, regardless of type, size, activities and location, and covers all types of risk. It was developed by a range of stakeholders and is intended for use by anyone who manages risks, not just professional risk managers.

WHAT ARE THE BENEFITS FOR MY BUSINESS?

ISO 31000 helps organizations develop a risk management strategy to effectively identify and mitigate risks, thereby enhancing the likelihood of achieving their objectives and increasing the protection of their assets. Its overarching goal is to develop a risk management culture where employees and stakeholders are aware of the importance of monitoring and managing risk. Implementing ISO 31000 also helps organizations see both the positive opportunities and negative consequences associated with risk, and allows for more informed, and thus more effective, decision making, namely in the allocation of resources. What's more, it can be an active component in improving an organization's governance and, ultimately, its performance.

BOOK NOW

ANTI-BRIBERY MANAGEMENT SYSTEM

ANTI-BRIBERY MANAGEMENT SYSTEM

The publication of ISO 37001 Anti-Bribery Management Systems (ABMS) in 2016, enables organizations to establish procedures identifying and prioritizing the treatment of bribery risks and to train up and maintain the competence of business associates working for and on behalf of the company to do business with integrity.

ISO 37001's structured approach to identifying, evaluating, analyzing and mitigating bribery risks with appropriate communication, training and procedures brings the standardized model used by other management systems to this important field of enterprise risk.

BUSINESS CONTINUITY

BUSINESS CONTINUITY

The international management system standard ISO 22301:2012 lays out the requirements for organizations to allocate responsibility and resources to understand the risks, plan, establish controls, and structure their operations in order to enhance resilience and recover more swiftly when failures do occur. In establishing an ISO 22301 compliant Business Continuity Management System (BCMS) the organization looks beyond itself, to consider its stakeholders and reach out into its value chain to improve the resilience of the whole business ecosystem and society within which it operates.

Like other management systems there are requirements to train staff to ensure competence, to check the functioning of the systems and procedures put in place periodically with internal audits and management reviews focused on continual improvement. ISO 22301 also follows the same High Level Structure (HLS) making it easier to integrate into existing ISO based management systems that the company may already have in place.
