# BUSINESS CHALLENGE

## WHY OCCUPATIONAL HEALTH AND SAFETY?

With growing industrialisation and the transport of goods across the globe, work related injuries, ill health and fatality is one of the greatest challenges facing us today. In 2016/2017 in the UK alone, an estimated 31.2 million working days were lost due to work related illness and workplace injury. This equates to an estimated cost of GBP 14.9 billion per year.

Industry faces the challenge understanding and prioritizing the Occupational, Health and Safety hazards and risks present in the business processes. It has long been felt that an internationally acceptable standard to systematically manage the hazards and risks and to improve performance has been required. The International Organization for Standardization (ISO) has adopted various existing Health and Safety standards (such as BS OHSAS 18001) and published ISO 45001 in 2018, which specifies the requirements for a management system to protect against and reduce the likelihood of the occurrence of risks.

## SOLUTION

It is essential that all managerial and non-managerial staff are made fully aware of the hazards in the workplace and the risks arising out of these hazards to the safety of employees as well to the organisation and of the methods to control them. It is also important that all employees are made fully aware of the applicable laws in their country and their provisions as applicable to their area of operation and of the consequences of not complying with these requirements. Formal training of employees is a positive step in this direction.

## THE AIM

The aim of this course is to provide delegates with the knowledge and skills required to perform first, second and third-party audits of Occupational Health & Safety management systems against ISO 45001, in accordance with ISO 19011 or ISO 17021, as applicable. All references in this document to ISO standards are to the current versions unless stated otherwise.

Delegates who successfully complete this CQI and IRCA Certified ISO 45001 Lead Auditor (OHSAS) Training course (within three years prior to applying to become a certified auditor) will satisfy the training requirements for initial certification as a CQI-IRCA Certified OH&SMS auditor.

## WHO CAN ATTEND

All those who are responsible for implementing, maintaining and improving an OH&SMS according to the ISO 45001:2018 Standard must attend this course.

The course is certified by CQI-IRCA.

# PREREQUISITES

**Recommended prior knowledge:** Delegates must have successfully completed a CQI-IRCA Certified Lead Auditor Training Course (40 hrs) on any subject with Annex SL Framework based ISO Standards. Additionally, they are recommended to undergo a Foundation training course on OHSMS (FD127 OHSMS ISO 45001:2018 Foundation).

Alternatively, delegates are expected to acquire adequate knowledge on the following:

- Familiarity with the requirements of ISO 45001
- Be conversant with the Occupational Health and Safety Management System elements and concepts
- The purpose and benefits of Hazard identification and risk assessment
- The principles of risk assessment and of managing them
- Typical OH&S strategies
- OHSMS performance metrics, monitoring, measurement and improvement methodologies

# BENEFITS

**01** An appreciation of the importance of OHSMS in business operations

**03** Be conscious of the approach towards implementing the OHSMS

**02** Knowledge of the requirements of the ISO 45001 Standard

**04** Proficiency in the approach to auditing the requirements of the Standard from the 1<sup>st</sup>, 2<sup>nd</sup> and 3<sup>rd</sup> party perspective

## TOPICS COVERED

- Introduction to OHSMS
- Requirements of ISO 45001
- Overview of
  - Occupational health and safety issues
  - OH&S Strategies
- Overview of Audit management, Performing audits and Audit reporting for OHSMS
- Practical exercises, workshops, case studies, Role plays and feedback

## PROGRAMME METHODS

The programme uses a mixture of taught sessions, interactive group discussions and exercises to achieve its aims. The practical exercises are based on the procedures and work instructions that could equally apply to many different enterprises.

## IN-HOUSE COURSES

Courses can also be conducted in-house at your premises if a sufficient number of participants are available. For more details, contact your nearest branch. Special Groups can be organised for homogenous groups or for different hierarchy levels and for different durations depending on your organisation's needs.

## EVALUATION & CERTIFICATION

There will be two types of assessments. Continuous assessment, where all participants will be assessed and awarded marks in each session on various competences and skills gained, including relevant soft skills. There will be a formal written examination at the end of the course. All the delegates who successfully complete both the continuous assessment and final examination will be awarded the "Certificate of Achievement" and other participants will be awarded a "Certification of Attendance".

# BUREAU VERITAS DIGITAL TRAINING

Our digital courses and resources are a flexible, convenient solution to your specific training needs. No matter how geographically scattered your teams may be, our digital options ensure that your employees receive the highest quality, consistent training. You can choose from our comprehensive catalogue of digital training courses, or we can partner with you to create a customized digital training program suited to your particular objectives.

## KEY BENEFITS

**A flexible, user-led digital learning experience**

**Detailed and clear explanation** of the latest industry best practices, regulations and requirements

**Actionable insights** on your organization's obligations and responsibilities

**Optimize organizational control** by ensuring your employees receive relevant, consistent training

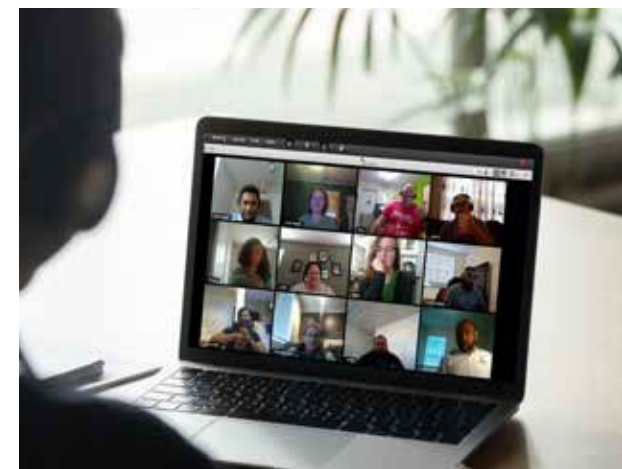

### E-LEARNING PROGRAMS

Our e-learning courses are a flexible training solution that allow your employees to learn at their own pace. Our team of industry experts have designed some of the most specialized courses on the market. The Bureau Veritas e-learning system is user-led and accessible from any place and at any time, thanks to our 24/7 online infrastructure.

### BLENDED TRAINING

A blended course combines online digital media with the traditional classroom method. With our blended training, you will benefit from classroom interaction with our global experts, as well as a totally flexible online training system, giving you scope and autonomy. This is an attractive option if you want the personal input of our experts and the flexibility of e-learning.

### VIRTUAL CLASSROOM COURSES

Our Virtual Classroom is an ideal alternative to the traditional classroom setting for professionals who may not have the budget or time for travel, or prefer the convenience of attending a course online. This is a live tutor-led experience where the trainer and delegates can interact with each other and share materials as if they were all in a room together.

## SHAPING A WORLD OF TRUST

Bureau Veritas is a Business to Business to Society company, contributing to transforming the world we live in. A world leader in testing, inspection, certification and technical services, we help clients across all industries address challenges in quality, health & safety, environmental protection and social responsibility.

## CERTIFICATION FOR CONTINUAL IMPROVEMENT

Bureau Veritas is one of the world's leading certification bodies. We support clients on every continent to continuously improve their management systems and organizational performance, in order to mitigate risk, achieve compliance, increase stakeholder confidence and achieve excellence.
